

Ferry Diesel Mechanic

We are looking for an experienced, confident mechanic who takes pride in their work and are looking for an opportunity to develop and grow with an industry leader. The ideal candidate will be a dedicated, flexible employee with a solid work ethic, good communication skills and a positive attitude who thrives on working in a challenging and fast-paced environment. This position requires an individual that is professional, team-oriented, and able to take direction while working independently.

The work schedule is Tuesday - Saturday 10:00pm - 6:30 am. Qualified candidates must have basic carpentry, plumbing, and wiring skills, as well as, experience working with hand tools, industrial tools, rigging, forklifts, etc. Responsibilities will encompass all aspects of general marine mechanics including shaft work, engine alignment and running gear, installation and repair (both mechanical and electrical) of wiring, pumps, valves, piping, plumbing, and thru hulls as well as:

- General mechanical and electrical work.
- Systems and electronics installation and repair.
- Repair and installation of marine electronic equipment including marine communication navigation, computer systems, and electrical systems both AC and DC is critical.
- Experienced in rigging and mechanical aspects of a sailing vessel is key.
- Accept tasks from the Port Engineers and plans/implements execution.
- Assist Maintenance Technicians with daily responsibilities.
- Paint, repair, clean, and generally improve facilities, vessels, and equipment as required by the Maintenance Supervisor.
- Utilize power tools to accomplish designated tasks.
- Maintain supply, tool, and parts inventories.
- Use of approved Hazmat required for Paints, Solvents & Cleaning Agents.
- Assist with filling water, bunkering fuel, connecting and disconnecting shore power as directed.
- Perform cleaning and custodial tasks of the vessels and property, including maintenance, construction tasks as assigned and minor engineering repairs.

- Seek the highest levels of quality and professionalism.
- Assist in ensuring compliance with all applicable local, state, and federal safety and environmental regulations.
- Assist in ensuring the vessel is in an inspection-ready condition at all times.
- Demonstrated knowledge of and experience in repair, maintenance, and replacement.
- Work to achieve the highest levels of performance and productivity.
- Willingness to work outdoors in all weather conditions.
- Excellent customer service skills.
- Ability to effectively interact with passengers, guests, and fellow employees.
- Ability to work in a fast-paced, quickly changing environment.
- Proven track record of working successfully in a team environment.
- Submit to and successfully pass a comprehensive background check, alcohol and drug tests as mandated by the USCG including but not limited to pre-employment, random, reasonable suspicion and post-accident/incident testing.

Benefits:

- Health insurance
- Dental insurance
- Vision insurance
- Retirement plan
- Paid time off
- Flexible schedule
- Professional development assistance

Job Type: Full-time
