About NY Waterway

Founded by Arthur Imperatore, Sr. in 1986, NY Waterway operates the nation's largest privately-owned commuter ferry service. Prior to the pandemic shutdown, NY Waterway carried more than 32,000 passengers each weekday on 23 routes across the Hudson River, bringing New Jersey commuters to Manhattan and back. In cooperation with MTA Metro North Railroad, ferries bring commuters from the west side of the Hudson River in Newburgh and Haverstraw to the Hudson Line stations in Beacon and Ossining. On dozens of occasions, NY Waterway ferries have provided emergency service when public transit systems are disrupted. On 9/11, NY Waterway ferries evacuated more than 150,000 people from Manhattan, part of the largest maritime evacuation in history. In August 2003, when a massive blackout shut down all Hudson River crossings, NY Waterway carried 160,000 people home to New Jersey. Ferry crews have also rescued more than 300 people from New York waters, most notably the 143 people rescued from US Airways Flight 1549, the Miracle on the Hudson in 2009, the most successful marine rescue in aviation history.
