NY WATERWAY FERRIES ARE BEST ALTERNATIVE TO PATH WEEKEND CLOSURE TO WORLD TRADE CENTER

Reduced Weekend Fares and Monthly Pass Includes Weekend Service

NY Waterway's reduced-priced Weekend Ferry Service to Midtown and Downtown Manhattan out of Weehawken, Hoboken and Jersey City is the best alternative when there are changes or disruptions to the public transport system into New York City.

For example, ferry passengers can get from the Hoboken/NJ TRANSIT Terminal or Harborside in Jersey City to West 39th Street in Manhattan in 10 minutes for just \$7 on weekends. Free NY Waterway buses are waiting at West 39th Street to take passengers on routes through Midtown and Downtown Manhattan.

Monthly NY Waterway pass-holders pay no additional fare to ride any ferry route on weekends, a great way to visit the new Hudson Yards and climb the iconic *Vessel* or enjoy other Manhattan attractions.

Visit nywaterway.com/weekends for more information.

For the next year, the Port Authority is suspending weekend PATH service between Exchange Place in Jersey City and the World Trade Center. On weekends, PATH personnel distribute special round-trip ferry tickets at Exchange Place in Jersey City. These tickets can be used only on NY Waterway's Harborside to Brookfield Place/Battery Park City ferry route. The Harborside Ferry Landing is a short walk from the Exchange Place PATH station.

For riders going to New Jersey on weekends, PATH personnel are distributing the round-trip ferry tickets at the World Trade Center PATH station in the Oculus. Riders are directed to the Brookfield Place/Battery Park City Ferry Terminal, a walk which is mostly indoors, for the NY Waterway ferry ride to Harborside and the transfer to PATH at Exchange Place.
